Fig. 8

**Fig. 9**

Fig. 6 is a schematic diagram of a multi-layered structure, possibly a cross-section of a material or a device. The diagram shows several layers and components, with labels indicating specific parts:

- 1**: A large, irregularly shaped region on the left side, possibly a substrate or a component.
- 2**: A layer or region within the structure, located below the main irregular shape.
- 3**: A layer or region on the right side of the structure.
- 4**: A vertical dashed line or boundary running through the center of the structure.
- 5**: A layer or region at the bottom of the structure.
- 6**: A layer or region at the top of the structure.
- 7**: A horizontal dashed line or boundary near the bottom left.
- 8**: A layer or region in the upper central part of the structure.
- 9**: A layer or region in the upper left part of the structure.
- 10**: A layer or region in the middle left part of the structure.
- 11**: A layer or region in the middle right part of the structure.
- 12**: A layer or region in the lower right part of the structure.
- 13**: A layer or region in the lower central part of the structure.
- 14**: A layer or region in the lower right part of the structure, adjacent to 12.
- 15**: A layer or region at the very bottom of the structure.
- 16**: A layer or region in the lower central part of the structure, adjacent to 13.
- 17**: A layer or region in the lower central part of the structure, adjacent to 16.
- 18**: A layer or region in the lower central part of the structure, adjacent to 17.
- 19**: A layer or region in the lower central part of the structure, adjacent to 18.
- 20**: A layer or region in the lower central part of the structure, adjacent to 19.
- 21**: A layer or region in the lower central part of the structure, adjacent to 20.
- 22**: A layer or region in the lower central part of the structure, adjacent to 21.
- 23**: A layer or region in the lower central part of the structure, adjacent to 22.
- 24**: A layer or region in the lower central part of the structure, adjacent to 23.
- 25**: A layer or region in the lower central part of the structure, adjacent to 24.
- 26**: A layer or region in the lower central part of the structure, adjacent to 25.
- 27**: A layer or region in the lower central part of the structure, adjacent to 26.
- 28**: A layer or region in the lower central part of the structure, adjacent to 27.
- 29**: A layer or region in the lower central part of the structure, adjacent to 28.
- 30**: A layer or region in the lower central part of the structure, adjacent to 29.
- 31**: A layer or region in the lower central part of the structure, adjacent to 30.
- 32**: A layer or region in the lower central part of the structure, adjacent to 31.
- 33**: A layer or region in the lower central part of the structure, adjacent to 32.
- 34**: A layer or region in the lower central part of the structure, adjacent to 33.
- 35**: A layer or region in the lower central part of the structure, adjacent to 34.
- 36**: A layer or region in the lower central part of the structure, adjacent to 35.
- 37**: A layer or region in the lower central part of the structure, adjacent to 36.
- 38**: A layer or region in the lower central part of the structure, adjacent to 37.
- 39**: A layer or region in the lower central part of the structure, adjacent to 38.
- 40**: A layer or region in the lower central part of the structure, adjacent to 39.
- 41**: A layer or region in the lower central part of the structure, adjacent to 40.
- 42**: A layer or region in the lower central part of the structure, adjacent to 41.
- 43**: A layer or region in the lower central part of the structure, adjacent to 42.
- 44**: A layer or region in the lower central part of the structure, adjacent to 43.
- 45**: A layer or region in the lower central part of the structure, adjacent to 44.
- 46**: A layer or region in the lower central part of the structure, adjacent to 45.
- 47**: A layer or region in the lower central part of the structure, adjacent to 46.
- 48**: A layer or region in the lower central part of the structure, adjacent to 47.
- 49**: A layer or region in the lower central part of the structure, adjacent to 48.
- 50**: A layer or region in the lower central part of the structure, adjacent to 49.
